

We take “make learning personal” personally.

Small class sizes, hands-on instruction, and genuine teaching practices make our learning experiences more meaningful. And our professors make them hyper-personal superheroes known as Academic Advisors? They advise you on how to navigate your own arts-focused academic career.

Ask a follow-up question or schedule a one-on-one meeting to learn more and get any questions answered.

Find out more about our curriculum and what your semester-to-semester studies could look like.
